

GENERAL INFORMATION BULLETIN

MEMO: TO OUR DISTRIBUTORS AND RETAILERS
DATE: JULY 12TH, 2017
FROM: ANDRÉ MASSÉ – SENIOR PRODUCT MANAGER
SUBJECT: IMPORTANT – MODIFICATIONS FOR RESIDENTIAL ELECTRIC WATER HEATERS

In accordance with our company policy of on-going product improvement and in order to standardize our procedures, we have decided, following the implementation of the new energy efficiency standards in Canada, to review the nomenclature of some residential electric water heaters.

In fact, the *residential electric water heater* models ETE will become STE and the TPS models will become STPS.

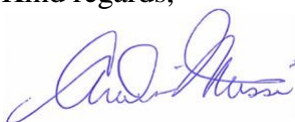

We plan to cease production of these models on August 15th, 2017. As long as inventory permits, we will continue to deliver the existing models until stock is depleted. However, please note that in the near future, the electric water heaters shipped will be the STE and STPS models which will be slightly more efficient.

Also note that these changes will not affect the ETE storage tanks which will remain unchanged.

	Model	Diameter (inch)	Height (inch)	Heat Trap
	142ETE	22	36 1/4	Yes
New	142STE*	22	36 1/4	Yes
	152ETE	22	48	No
New	152STE	22	<u>49 1/4</u>	<u>Yes</u>
	172ETE	23 1/2	60	No
New	172STE	<u>24</u>	60	<u>Yes</u>
	172TPS	23 1/2	60	No
New	172STPS	<u>24</u>	60	<u>Yes</u>

*: No physical modification

Kind regards,

André Massé
 Senior Product Manager
