41.6 imp. gal./189 Litres
(50 U.S. gal.)

5 or more persons

49.9 imp. gal./227 Litres
(60 U.S. gal.)

High usage

41.6 imp. gal./189 Litres
(50 U.S. gal.)

49.9 imp. gal./227 Litres
(60 U.S. gal.)

62.5 imp. gal./284 Litres
(75 U.S. gal.)

These guidelines do not take into consideration teenagers, whirlpools, spas, extra large bathtubs, and multi-head shower systems. Anticipate the future needs of your family when selecting your water heater.

NOTE : These figures are based on the latest customer satisfaction statistics of your local utility, taking into account cold water conditions in the winter. These recommendations may be higher than those of other manufacturers. US figures will be less.
